2019 – 2020 Snow & Ice Removal Request for Qualified Plowing Contractors

The Town of Norwell is requesting qualified plowing contractors and or individuals who wish to be considered for hire in snow and ice. The Highway Department for the Town of Norwell, in compliance with the provisions contained within Chapter 30B of the General Laws, respectfully request qualified contractors and/or individuals who wish to be considered for hire in our snow and ice control program.

The Highway Department will be engaging the services of trucks, loaders and assorted equipment for snow removal in several different categories. (Attached page 4 of 10). Qualified Plowing Contractors (QPC) who have successfully submitted all paper work and insurance certificates will receive first consideration. Consideration will be given to the QPC's who have successfully provided snow and ice removal services to the town in the past, or to the QPC's whose primary place of business or residence is in the Town of Norwell.

The Town of Norwell has established an hourly rate for each classification (Page 4 of 10).

The snow and ice season shall commence on November 12, 2018, and expire on April 30, 2019. All successful QPC's are expected to have their equipment ready at the beginning of each season and subsequently for each storm. The town will provide each QPC with a wearing blade. The town is not responsible for the installation of the wearing blade nor will allow for it to be installed on town property due to insurance stipulations. For routine repairs to your truck or plow, however, if equipment breaks down while engaged in snow and ice operations for the town, the Highway Department may assist in efforts to get the equipment back on the job at our discretion.

All hired equipment used for snow & ice control, after reporting to work, by instruction from the Highway Surveyor or his representative, shall be paid for the actual number of hours worked, the time to be computed to the nearest half hour. All streets shall be cleaned for their full paved width and all intersections shall be cleaned and pushed back each and every storm, regardless of snow depth. No QPC plow will leave its assigned route unless specifically ordered to do so by the Highway Surveyor or his designee. All plowing operations shall be continuous, and shall be continued without interruption unless said interruption is cleared with the Highway Surveyor or his designee. Equipment contracted by the Town of Norwell must not be engaged in any private work while under hire by the Town of Norwell.

It is the policy of the Town of Norwell that if a QPC is called for services and responds, he/she is to report to the Highway Department within one (1) hour from the time he/she is called. The contractor will be paid from the time appearing on the time card.

All QPC's shall be allowed a 15-minute paid break every four (4) hours and a 30-minute paid break every eight hours, for a total of 45 minutes every eight (8) hours. These times cannot be combined to extend break periods and breaks cannot be taken at the end of a shift. QPC's must notify the Highway Surveyor or his designee before any such break is taken.

The Town will supply ballast if needed however, it must be dropped in the designated area at the end of each storm.

Upon return of your completed forms, the Highway Surveyor or designee will arrange to inspect your vehicle(s) for proper safety lighting, tires, plow, hitch, and Manufacturers Gross Vehicle Weight sticker.
